

PRIVATE EPISCOPAL INSTITUTE,
TROY, N. Y.

Rev. W. F. Walker, A. M., Principal and Proprietor.
The purpose to which they are devoted. They are new, spacious and airy; and are fitted up on a convenient plan, and in a neatness of style, which is not exceeded. They comprise accommodations for forty-four pupils—rooming in pairs, five instructors, besides the Principal—the family, a General School Room, Recitation Rooms, a Reading Room, a Laboratory, and a Chapel.
The location is unsurpassed for healthfulness and beauty. It is upon an eminence in the suburbs of the city, securing by its retirement and elevation, a free and healthy atmosphere, and commanding an extensive and beautiful view.
Grounds are connected with the Establishment which are ample and beautiful, affording full scope for recreation and amusement.
Thus, the accommodations are so full, as to render it unnecessary for the pupils to have any communication with the city.
The Institution is carried on by the Principal, and five Assistants of character and experience in the profession.
Its design is to impart a thorough and practical education upon decidedly Christian principles,—to unite sound learning with pure religion.
It is conducted by a plan of a well regulated Christian family; for the time, the adopted home of its members. The government is, therefore, strictly parental.
In agreement with the natural constitution of the pupil, the school is arranged in the departments, the Moral, the Intellectual, the Physical, and the Domestic.
The Moral Department, which involves the government, is supplied by the Principal. It embraces a course of moral and religious studies, adapted to each pupil. To the Holy Scriptures, for the Constitution, for the foundation on which alone may be built a solid and enduring character, and as the only safe and proper basis of a Christian education. The views of scripture truth, and religious duty presented, are in strict accordance with the doctrine, discipline, and worship of the Protestant Episcopal Church. It is the constant endeavor in this department, to win over to the Saviour, and to his body—the Church—the first and strongest affections of the youthful heart.
The Intellectual Department embraces all the ordinary English branches necessary to business and commercial pursuits; additional facilities for instruction in the higher departments of literature, science, and art, are furnished, to the requirements, the Professions, and Civil Engineering; also in Drawing, and the Modern Languages.
It is conducted by the Principal and Assistants, and by such masters as it is necessary from time to time to employ. Instruction in this department is specially directed to the understanding. It is the endeavor here to improve and strengthen the thinking powers. The pupils, therefore, are taught the rationale of the sciences, and to view them—more attention is paid to principles than rules. Particular regard is had to the intended future destination of the pupil, and his education is directed accordingly. He may be fitted for the study of Law, for the study of Medicine, for the study of the Arts, or for the study of the Professions.
The Physical Department is intended for exercise and health. It is supervised always by a master, who has the supervision and direction of the pupils in all hours not taken up by the exercises of the school, and instructs in agreeable and useful exercises, promotive of health and happiness.
Special attention is paid to manners and habits.
Diligent attention to the performance of duties, and propriety of deportment, are expected of all who become members of the Institution.
A daily record is kept of the conduct of the pupils in their several classes is kept by each teacher, which is weekly submitted, by the Principal, to each pupil; and, at the expiration of four weeks, to the parents or guardians of each, in the form of a Report.
The admission of pupils is restricted to no particular age.
The Domestic Arrangement of the establishment is such to meet the approbation of parents, and to render the pupils in every respect comfortable. It is an invariable rule for the pupils to fare, in all particulars, as do the instructors, and the Principal and family. The meals of all are taken at one table.
A Directress is employed to take charge of the ward-rob, who devotes herself exclusively to that duty.
Pupils have but little reasonable use for pocket money. They are supplied by the Principal with all necessities, and more than enough to create and cherish artificial tastes and wants, which have an unfavorable bearing on future character. They will, therefore, be allowed no money, but at the pleasure of the Principal.—This rule is imperative, and no exception, except expense to the parent, and character to the pupil. The Bureau of charge of all moneys intended for the use of the pupils, and distributes all on an order from the Principal.
The terms are \$250 per annum, payable half yearly in advance, the year commencing on the first of June.
Male Pupils, such as fuel, lighting, beds, bedding, books, stationery, &c., are furnished, and without extra charge.
There are two vacations in the year, one of two weeks in the spring, and one of four weeks in the fall—exclusive of an intermission in the week from Christmas to New Year, and in Passion Week.
Every pupil about whose article of his clothing distinctly marked with the initials of his name, and possesses a complete inventory of the whole. He should also have, as his own property, a "Bible," and a "Book of Common Prayer."
Persons desirous of placing pupils in the Institution, or of obtaining further information relative to it, may address the Principal, either personally, or through the Post Office, or J. W. Mitchell, Esq., 63 E. Cedar street, New York.

OFFICERS.
REV. W. F. WALKER, A. M., Principal and Proprietor.
ROBERT MCNEILL, A. B., T. C. D., Classical Department and Modern Languages.
ERASTUS ROSELEY, A. M., Oratory, Rhetoric, and English Literature.
FLETCHER J. HAWLEY, C. E. (R. I.), Natural Sciences, Drawing and Civil Engineering, and Bureau.
IRVING K. BATCHELDER, Mathematics, and English Grammar.
DIGHTON Z. MOSHER, Penmanship.
mar 8—tm

"It only requires to be known to be certain of support."
[A general exclamation.]

ALBANY LOCK HOSPITAL.
DR. COOKE.

The unfortunate are respectfully informed that the Albany Lock Hospital, established and modeled after the most celebrated and successful of its kind, has been years since founded at Head Quarters, No. 3 Norton street, Albany, N. Y. To those unacquainted with this institution, it is necessary to mention that it has for its object the cure of all venereal diseases, as syphilis, bubo, stricture, diseases of the urethra, lumbago, four joints, impotency, diseases of the womb, seminal weakness of both sexes, nodes, caries of the bones, gonorrhea, gleet, with all venereal diseases in general, &c. &c.
Persons, ignorant of the nature of these diseases, are not aware that many stages mark its progress from the commencement to its full development, originating in a most simple form, and through neglect or injudicious treatment, assume a more aggravated state of disease, and may terminate in cancer, ulceration, pseudo syphilis, cancer, premature old age, not ending in a protracted incurable state of miserable existence.
This institution is under the superintendence and management of PROFESSOR COOKE, M. D., D. D., LL. D., of the city of Albany, N. Y., who will give his personal attention to the Dispensary, attached to the Institution, at all hours to invalids requiring professional services. He having had much more experience in this branch of medical practice than usually falls to the lot of any one member of the profession, therefore feels such confidence in his ability to give medical aid, that he will accept of all applicants, none need despair of a complete recovery.
The unfortunate therefore, who have suffered from the want of success by those less experienced, are invited to visit the Hospital, which only requires to be known to be an excellent cure, where the most perfect secrecy may be depended on, and the utmost privacy will attend the case who call. The whole house is exclusively appropriated to the use of patients, and all who are received into the Hospital, are treated as if they were the only ones there. The request of the patient, will a third party be permitted to be present.
Professor Cooke has a number of handsomely furnished private chambers, at No. 33 Green street, where he will receive gentlemen who may require medical aid. Residing himself on the premises, he will thereby be enabled to dedicate more than ordinary attention to his patients. Gentlemen will find it both convenient, as well as economical, in all cases of disease, to retire to these furnished rooms.
The Pectoral Essence of Bismuth, universally known as an excellent cough cure, is sold at the Dispensary, where its efficacy being decidedly superior to any specific cough, is every where recommended in all cases of coughs, colds, asthma, croup, hooping cough, as well as in all complaints of the chest and lungs. Transfers, therefore, ministers of the cure, and the Dispensary, and families, should never be without their abundant supplies.
As long as Professor Cooke desires to benefit the public, it is proper he should continue his attendance, for the good of strangers, as it is well known, people are extremely shy in speaking of cases of a delicate nature, even where a physician is present.
Communications, post paid, to the address of Professor COOKE, M. D., D. D., LL. D., Albany, N. Y., enclosing a bank note as a consulting fee, will have attention (none other will be received)—or a personal consultation may be had at all times, as usual, at the Dispensary, which is properly fitted up and arranged with separate offices for confidential interviews.
Office No. 33 Norton street—House No. 33 Green street, Albany. mar 13

NEW BOOKS.—School of the Gunner, translated from a French work on Artillery, by A. R. Brown. Brown's Conic Sections. Text Book, with several hundred engravings.

YORK COUNTY, Pa. Sept. 1, 1838.
Dear Sir: I have been informed of your helping hand, and am glad to hear that you have, for fifteen years past, been more or less troubled with this affliction; and by the information I have of your honor and good sense, I put complete confidence in sending money to you, and expect not only an answer, but help also.
I have heretofore heard much about such a man as you, but never saw the person who had received any benefit from your medical skill, until Mr. John Chandler, one of our neighbors, after using your remedy, has got his hearing again as good as ever, and by him learning where you live, I make bold in addressing you in hopes that I may receive the same help, and get my hearing also, as my neighbor Chandler did.
I send Five dollars, and be pleased to send the remedy for two persons, free of postage, as I am told you sometimes do for that sum, one for a poor neighbor of mine, and wish you would do well to me as you have done to others.
Do try your best, and make me hear again, as I and my neighbors have such great faith in what we have heard and seen.
Your friend and well wisher.
J. TISSANDY.
York County, State of Pennsylvania.
Dr. Green, Bethlehem, Pa.
N. B. Some folks in our parts have had their eyesight restored, through the strengthening virtues of the same remedy that restored the hearing of Joseph Chandler. This gives us our boarding house of help.

MRS. PAGE'S BOARDING HOUSE, on Pennypack Avenue, opposite the Centre Market. Persons visiting Washington can be comfortably entertained by the day or week.
Oct. 8

PROPOSALS for publishing a Second Edition of the MILITARY LAWS OF THE UNITED STATES, by Major Triemsen, of the United States Army, and published under the sanction of the War Department in 1825. It contains the most important of the resolutions of the old Congress, relating to the Army, from 1778 to 1825—the Constitution of the United States, and all the laws and regulations relating to the Army and the Militia, from 1778 to 1825.
The second edition, now proposed to be published, will contain all the matter embraced in the first, and will be revised and corrected, and will be published by Congress, bearing upon the Army, Militia, and Volunteers, which have been enacted from 1824, down to the close of the present session. The corrections and additions will be made by Major Cross, the original compiler.
Officers of the Army and Militia, and others, who have used the first edition of this work, have testified to its great usefulness.
In every like ours, where the authority of the law is paramount, the necessity of such a work is at all times manifest; but it is especially so at present when a large and mixed force of regulars, volunteers, and militia are called into active service.
The work will be of royal octavo size, and will be furnished to subscribers at \$2.50 per copy, bound in law sheep.
